

Chesapeake Bay Environmental Center Field Trip

This is an outdoor field trip. Please layer appropriately. Waterproof boots and a hat (to hide your eyes so the birds aren't as startled) are highly recommended.

Bring a long lens: There are several eagles that are active around the grounds as well as Northern Harriers.

Saturday, November 6, 2010 1:30 – 3:30 pm

\$5 per person

The center is across the Bay Bridge, just South of Kent Island:

From Annapolis, cross the Chesapeake Bay Bridge/Rt. 50 to exit 43B Chester River Beach Road, then left on Route 18. Take the first right onto Perry's Corner Road. The entrance to Chesapeake Bay Environmental Center is located about ½ mile on the right and is clearly marked with an entrance sign. Turn right at the sign onto a dirt road called Discovery Lane. Follow Discovery Lane until it ends at the Visitor Center parking lot.
