HD Video from your HDSLR Camera

Monopods

Monopods are great for run and gun style shooting.

Monopods with fluid heads are better

Tripods are always the best, if possible

Support System

There are several companies making shoulder support systems. Some are more well thought-out than others. Some were a rush to market. Try them out first before you buy. I have been able to reconfigure video shoulder support systems that work just fine and are a little cheaper.
